Director of Security Chief, Audit Staff

Comptroller

Sirector of legistics Chief. Redical Staff Ditel, Bulliagement Staff Chief, Commercial Staff

Thief, Project Administrative Flancing Staff

Reports Management

- The reports survey conducted last Fall revealed two significaut facts; (a) in the DD/S area we spend over 100,000 hours yearly propering reports, and (b) analyzing the mood for reports pays dividends. Recommendations were developed on 15 of the 226 reports examined. Improved practices already have eliminated over 7,000 hours of beariquarters reporting.
- 2. I am convinced that reports management should be continued in the DD/S area. Too are therefore asked to establish permanent measures to control and improve your internal reports and to coordinate requirements for external moorts with the Records Management officer for Seports, Management Staff.
- 3. Effective 1 Sctober 1956, each approved requirement for a recurring report shall be assigned a reports control symbol. Thereafter, personnel who receive a requirement for a recurring resert which has not been assigned a symbol, shall so notify their Reports Nunesement officer and defer complying with the requirement until notified that it has been approved.
